

BRIAN EVAN MCGINNIS

PHD STUDENT

Brian Evan McGinnis, 2146 East 5th Street, Tucson, AZ 85719

Editor, MDPI AgriEngineering Journal

January 5, 2025

Dear Editor,

Please consider the attached paper for publication in your journal. It evaluates approaches to addressing the class imbalance seen in training sets where one class (crop) greatly outnumbers a minority class (weeds). The focus on the improving models used for precision agriculture fits with the journal's aim of publishing research on automation techniques.

I am affiliated with the University of Arizona, where all research materials were collected.

1. We confirm that neither the manuscript nor any parts of its content are currently under consideration for publication with or published in another journal.
2. All authors have approved the manuscript and agree with its submission to Agriculture.

Sincerely,
Evan McGinnis
